- The tracking camera beam can also be manually operated on the keyboard.
- Easy-to-use software with Italian design.
High-definition cameras work in multiple lighting conditions including direct sunlight. 10 million pixels HD.
- High-resolution, anti-glare targets filtered to work with UV rays.
- Self-centering H-shaped clamps.
- 10-inch - 26-inch wheels.
- Factory calibrated and no need for maintenance calibration.
- Alignment data for over 60,000 vehicle models.

Features

- The shaft is equipped with 5mm steel plate to ensure strength. 16mm diameter column bottom plate to ensure foundation
- stability.
High strength trolley design, total plate curvature 14mm.
Lifting arm with reinforced design, prevent deformation.
- Fitted with foot handrails as standard.
- Equipped with a height limit Microswitch as standard.
- High-strength fine tooth locking mechanism, interlocks more closely.
- The height of the ground connection plate is only 28mm, making it
- convenient for maintenance. With 115mm diameter steel rope pulley, prevent the steel rope from being abraded, for smoother running.

Features

المميزات

- Ultra-thin design for easy installation and efficient space utilization in the workshop
- Strong lifting capacity of 4.5 tons, suitable for most passenger cars and light commercial vehicles
- Smooth and stable lifting motion thanks to a high-quality hydraulic system
- Durable steel structure with anti-corrosion coating for long-term reliability
- Ideal for wheel alignment and general vehicle maintenance.
- Equipped with mechanical safety locks and an automatic safety release system
- Includes overload protection for enhanced operator safety
- Precise synchronization system ensures both platforms rise evenly
- Low minimum height for easy vehicle access
- Quiet operation and low maintenance requirements
- High-quality components ensure long service life and consistent performance
- Suitable for both surface-mounted and flush-mounted installation options

Features

- High load-capacity capability, making it suitable for heavy components from electric or conventional vehicles (such as battery packs, drive units or chassis parts).
- Very low minimum height clearance, enabling access under vehicles with low ride height or allowing the platform to act as a workbench.
- Generous maximum height reach, giving ample space for technician access underneath or around the load.
- Flexible platform length adjustment, which allows the unit to accommodate different vehicle sizes or component dimensions with ease.
- A design focused on lifting and servicing large modules (e.g., batteries), meaning it's tailored for electric-vehicle work and not just a generic car lift.
- Relatively low drive power requirement for the class, which may make installation and power-supply demands simpler in a workshop environment.
- Good suitability as a dual-purpose unit: capable both of lifting for access and serving as a staging/work platform during major component removal or installation.

LAUNCH® X-431 Series

جهاز تشخيص و كشف اخطال Multi-System Diagnostic & Service Tool X-431 PRO3

Features

- Enables you to diagnose light, medium & heavy duty (optional) vehicles with Smartlink C.
- Full system vehicle coverage for U.S., Asian and European markets over 110 manufacturers, which is continually updated.
- Real-time voltage display is supported, which helps you monitor the voltage condition of the vehicle during the diagnosis.
- Intelligent diagnostic enables automatic VIN identity to automatically access systems quickly.
- Intelligent and local diagnostic, which include full diagnostic functions, such as read/clear DTC, live data streaming, bi-directional control, coding, etc.
- Guided functions for VW and AUDI. (Support a total of over 30,000 functions for VW and AUDI)
- Optional ADAS calibration function increases more revenue.
- Advanced coding and programming functions.
- An extended solution to support TPMS service.

LAUNCH® X-431 Series

جهاز تشخيص و كشف اعطال Multi-System Diagnostic & Service Tool X-431PRO3SE

Features

4GB+64GB

المميزات

- Upgraded Android 10.0 operation system, 4GB memory and 64GB storage ensure faster and smooth diagnosis.
- Brand new designed VCI supports even more communication protocols, e.g. CAN, CAN FD, DoIP*, etc. (*Need an extra DoIP cable)
- Wireless communication offers flexible and easy connections for diagnostics, while a cabled connection offers a fast and stable connection for advanced work like coding.
- Full system OE-Level diagnostics on 1996 and newer U.S., European and Asian vehicles
- Full diagnostic functionality includes comprehensive OBD II diagnostics, read/clear DTCs, bi-directional control, remote diagnosis, live data streaming, coding, etc.
- Optional ADAS calibration capability for calibrating LDW, RCW, AVM, NV, BSD and ACC system with the X-431 ADAS calibration tools.
- Expand diagnostic coverage via "Mall".
- One-stop Info Center includes vehicle repair information and latest updates.
- Review the previous diagnostic report via the Diagnostic History.

جهاز كبس واختبار دورة تبريد السيارات (الردياتير) Master Cooling System Detector And Radiator Car Pressure Tester Temperature Tool Kit **GEC-G1022**

Features

المميزات

- This professional tool is designed for finding internal and external leaks in a vehicle's cooling system.
- It allows easy change of coolant and testing of radiator, heater ore, and radiator cap.
- It features a wide selection of caps and a pressure testing pump.
- Gauge test pressure from 0 - 2.5 BAR / 0 - 35 PSI
- Comes with a full set of instructions for easy application.

14053

زرجينة سوستة مساعد 370 مم Oil Combustion Spraying Pressure Meter Kit **GEC-G1012**

Features

المميزات

- Can be used on all petrol engines, gives readings in PSI and BAR, measures pressures of up to 20 BAR (300PSI). Kit includes 3 rubber hoses with brass adaptors suitable for spark plug thread sizes stated above, plus valve and o-ring replacement set.
- Suitable for 10/12/14mm spark plug threads
- Can be used on all petrol engines
- Gives readings in PSI and BAR
- Measures pressures of up to 20 BAR (300PSI)
- Kit includes 3 rubber hoses with brass adaptors above
- Supplied with valve and o-ring replacement set

14059

جهاز اختبار ضغط طللمبة وفاكيوم محرك Vacuum & Fuel Pump Compression **GEC-G1015**

Features

المميزات

- It measures the vacuum of the engine to diagnose faults up to 70 hg
- The pressure of the gasoline pump can be used up to 10 bar

140528

GEC Tools

Features

- A comprehensive kit for testing the compression on both petrol and diesel vehicles features 600 psi gauge with large rubber bumper, straight and right angled quick connect fittings and an extensive range of spark/glow plug and injector adaptors
- This kit will cover most of modern car, van, truck, bus size: 10,12,14,16 mm
- Injector adaptor m20, m22, m24 and ford stanadyne injectors plus clamp on injectors.

المميزات

140511

GEC Tools

Features

- 4pcs adapters for a wide number of vehicles M10, M12, M14, M18
- 2pcs straight and angled adapter tubes
- 3 inch gauge with dial color scale, rubberized protector with reading from 0 to 300 PSI
- 14" extension 300PSI hose

المميزات

140510

GEC Tools

Features

- Designed to detect a variety of common engine faults related to the loss of compression
- Able to detect worn piston rings, worn valves, cracks in cylinder walls and blown head gaskets
- Suitable for use on most gasoline engines with 10 or 12mm spark plugs
- Tester checks the amount of leakage in an engine cylinder and helps determine the source
- Double gauge system, ideal for testing trucks and cars where clearance is minimal
